The News.

The Republican National Committee met at New York yesterday. It was decided to hold the National Convention at Chicago on June 13th next.

A fire occurred at Portage City, yesterday, at 3 o'clock, entirely destroying the Lee House with most of the furniture.

We have some late and interesting California news, a synopsis of which will be found in our telegraph column.

The Commercial House at Rockland, Me., was destroyed by fire Tuesday night, involving the loss of several lives.

The *Persia*, which sailed yesterday from New York, took out $150,000 in specie.

ANOTHER STEP FORWARD—TELEGRAPHIC COMMUNICATION WITH CALIFORNIA.—Mr. CHARLES M. STEBBINS and his associates of the Western Union Telegraph Company, are engaged in a telegraphic enterprise of a magnitude which fully entitles it to be classed with the efforts which are being made to connect Europe and America. The above named parties, with others on the Pacific side, have actually commenced and are earnestly carrying forward the construction of a telegraphic line from St. Louis to San Francisco, under the patronage of the New York Associated Press and the press in other cities connected with it in the Atlantic States, and the San Francisco *Bulletin* and Sacramento *Union* on the Pacific side. The line on the east end has been completed for nearly three hundred miles West of St. Lous, on the route of the Overland Mail, and about two hundred and fifty miles on the West end from San Francisco.

The New York Associated Press and the *Bulletin* and *Union* of California have undertaken to pay the contractors a sufficient sum for semi-weekly reports of important news. to justify them in going forward with the line a sufficient distance from each side to gain from two to four days over the mail, or in other words to place New York and San Francisco within about sixteen or seventeen days of each other; and there is reason to hope that other parties, and perhaps the Government of the United States, will now come forward and give the contractors such assistance as will enable them to extend the wires through from city to city within the next year or two.

PICCOLOMINI.—Little Pic certainly deserves the title of Flirt. But as anything about the "charming creature" is interesting, read what she has been and said of "dear Dublin" and "my dear Irish." If our memory serves us rightly, she has said something about dear Boston, dear Cincinnati, and my dear New York, promising to "luv still zi same." Here is her letter dated Paris, October 19th.

GENTLEMEN:—I have been favored with a handsome and elegant copy of Don Giovanni. Should heaven accord me the power to revisit the city of my sympathies, that dear Dublin, I hope to be able to express in words, better than in these hasty lines, my lively sense of gratitude toward those gentlemen who have conceived the graceful idea of giving me so beautiful a present. I encourage myself with the flattering hope of assuring them in person, hereafter, how much I prize their gift. I could wish that my dear Irish knew that I can never forget the proofs of kind sympathy they have given me, and that neither time nor distance can ever obliterate them from my recollection. Believe that I sign myself, with sentiments of much esteem, your most obliged.

MARIE PICCOLOMINI.

FOX HUNTING NEAR NEW YORK.—The New York *Tribune* learns that a fox hunting club, composed of a number of aristocratic gentlemen, has been established in that city. They will of course have to support an extensive stud and packs of hounds, and go down on the New Jersey Flats to do the "huntin," provided a fox can be obtained.

THE VICTORIA BRIDGE.—A special train comprising three locomotives and ten cars, containing 600 invited passengers, passed over the Victoria Bridge at 1 o'clock last Saturday. On its return a cold collation was served up and speeches made. The bridge is now fairly open for traffic and regular passenger trains have commenced running over it.

SKATING IN THE CENTRAL PARK.—Every thing is in readiness for a skating season at the Central Park, New York, except the water, or ice, and some doubts are entertained whether the Croton Commissioner will provide the necessary leak, in time for this season's frosts.

THE "irrepressible conflict" seems to have taken possession of the stage in New York. The *Octaroon* at the Winter Garden, and *A Southerner in New York* at LAURA KEENE'S divide the attention of the theatre-goers.

HOPE NOT.—We hear it reported that Brick Pomeroy has left the *News* office, and will probably connect himself with some paper in New York. We should be sorry to see Brick's name disappear from the roll of Wisconsin Editors.—*La Crosse Dem.*

We understand it was a government organ at Washington.

AN INDIAN KILLS A BEAR AND THE BEAR KILLS THE INDIAN.—On Tuesday of this week an Indian hunter encountered a large bear near Beef River Station, and the affray proved fatal to both. The Indian shot the bear, wounding him severely, and then rushed up expecting to dispatch him with his tomahawk. Mr. Bruin "locked horns" with Mr. Indian and a struggle for life ensued. The conflict must have been a terrible one as the belligerents were both badly maimed. They were found a short time after, lying a few feet apart, dead.—*Eau Claire Free Press, Dec. 16th.*

CHARLES GALE, Esq., of Waterford, Racine County, has got his paper mill in operation, and is already doing a good business. At present only wrapping paper is made, but during the winter the necessary machinery for making news paper will be put in. The establishment of such a mill here will bring into Waterford a good deal of business, and prove a valuable addition to the already thriving business of this town.—*Racine Advocate.*

RECAPTURED.—Two of the prisoners who escaped from the jail last week, Newman, and the Frenchman confined for stealing two apples, have been recaptured and snugly ensconced in their old quarters. Pratt is still at large.—*Portage City Record.*

OH! there are hours, aye moments that contain feelings that years may pass and never bring.

NAPOLEON III. is falling at last. He has been very polite to Senator Seward, and the Southern men in France are very idignant, and do not spare their words. Such conduct on the part of the Emperor shows that he is not equal to his position, and that he must be put down. Gov. Wise, who will be at leisure in a few days, will fire at him a speech five hundred columns long, and so smother him. After having escaped the perils of Magenta and Solferino, it *is* hard that the Emperor of our "ancient ally" should be in the way to fall under a shower of paragraphs. He has neglected the study of the American Constitution, or he could not have failed to see that he has been most disregardful of Southern rights. It is only a week since a Richmond paper gravely argued in favor of making Napoleon III. Protector of the South, after the fashion that he is the Protector of the Pope; and at that very time he was on the most intimate and friendly terms with Mr. Seward! Well has it been said, put not your trust in princes! The South should turn its eyes further South, and call the Emperor of Brazil for protection. No, that wouldn't do either, for he is so unenlightened as to hold a black man to be as good as a white man, though slavery is one of his empire's imperial institutions. We fear the South is isolated.—*Boston Traveler.*

SURGICAL.—A young lady named AHRENS, about twenty years of age, residing with Mr. D. P. Putney upon the old nursery farm, died very suddenly on Monday morning last. She has been a great sufferer for years with acute pain in her stomach, but was still able to keep about her daily employment. On Sunday last she was taken with the usual symptoms, and died on Monday. At the request of her friends, Drs. Clark and Teegarden made a post mortem examination, the result of which revealed a cancerous condition of the stomach; an orifice in the diaphragm and one five-eighths of an inch in the anterior portion, also another about one-fourth of an inch in the posterior portion of the stomach were found. The stomach may be seen by all who desire, at the office of Dr. Clark upon Chatham Street, Racine.—*Racine Advocate, 21st.*

SINGULAR PHENOMENON.—"We hear," says the Rochester *Union*, "from the towns of Victor, Bloomfield and Mendon, that on Monday morning the fields were scattered over with snow balls of a peculiar appearance, which attracted general attention. These balls varied in size from six to eighteen inches in diameter, and though spherical, were elongated or lemon-shaped. Every one of these balls were perforated longitudinally—the largest having holes sufficiently large to enable a man to insert his arm. Wherever one of these ball was lying could be seen the prints of its rolling in the snow. It is presumed, of course, that this rolling process was performed by the wind—the snow being moist on Sunday evening, and growing hard towards the following morning. We do not recollect noticing anything like this phenomenon before, yet it may be no uncommon occurrence."

TO DESTROY THE APPETITE FOR TOBACCO—A clergyman says that he cured his appetite for tobacco in the following manner:—"I had a deep well of very cold water, and whenever the evil appetite craved indulgence I resorted immediately to fresh drawn water.—Of this I drank all I desired, and then continued holding water in my mouth, throwing out and taking in successful mouthfuls until the craving ceased. By a faithful adherence to this practice for about a month I was cured. I loathe the weed in every form, far more than I did before I contracted habits of indulgence."

FIRE AT PORTAGE CITY.—A fire broke out in Cornes' Meat Market, on Sunday night at about 12 o'clock, and it had so far progressed before it was discovered that no efforts could possibly stay it. The building, together with the ice house and barn attached to it, and an adjoining building owned by Christian, were soon burned to the ground. There was also quite a quantity of meats in the Market building which were destroyed with it. There was an insurance on the building of $1000 in the Hartford Company, and $500 on the stock in the Home Insurance Company. We believe the insurance will nearly or quite cover all losses.

AN ENGLISH CLERGYMAN who occupied the pulpit of the American Protestant chapel in Paris, on Sunday, lately announced, by request, that the following Thursday would be observed in that chapel as Thanksgiving day, conformably to a custom in the United States, and he said after the collection, he would read the proclamation of the President of the United States, naming the day as a day of general thanksgiving. When the time arrived, the good man commenced reading as follows: "Be it known that I, Edward D. Morgan, governor of the State of New York, do hereby appoint, etc." It is said the congregation laughed violently.

HALF a dozen young ladies lately took the white veil at Reading, Pa., a place famous for its coal. From whom they took it, is not stated, but the convent appears to be taking them in. The dear, silly creatures were rigged out in bridal dresses, with orange flowers on their pretty foolish heads, and each with a "bokay" in her little paw. A pretty way, indeed, of going through the opening process of renouncing the pomps and vanities of this wicked world!

THAT pious personage, Dan. Sickles, assured the Representatives to whom he spoke, but who don't speak to him, that the religious sentiment of the North is against the Republicans. How long has he been authorized to act as organ for the religious world? He thinks himself a modern Daniel, and so he is, a very modern one; and a lion besides, but with teeth drawn and claws pared. He should go to his den.

FIRE.—On Saturday evening last the residence of Mr. Jewett, on the corner of Chatham and Ninth streets, was discovered to be on fire. Fortunately a storm of mingled snow and rain was raging at the time and prevented its rapid extension. Aid was quickly rendered, and nearly everything removed from the house, even to the blinds and doors. The main part of the house was utterly destroyed. There was an insurance upon the building and furniture for $1,900.—*Racine Adv., 21st.*

A TENDER REPROOF.—A little boy had one day done wrong and was sent, after maternal correction, to ask in secret the forgiveness of his Heavenly Father. His offence had been passion. Anxious to hear what he would say, his mother followed to the door of his room. In lisping accents she heard him ask to be made better, never to be angry again, and then with child-like simplicity he added, "*Lord, make ma's temper better too.*"

IT is not work that kills men, it is worry. Work is healthy; you can hardly put more on a man than he can bear. Worry is rust upon the blade. It is not the revolution that destroys the machinery, but the friction.—Fear secretes acids; but love and trust are sweet juices.

SORROW treads heavily, and leaves behind a deep impression even when she departs, while joy trips by, with steps as light as wind and scarcely leaves a trace upon our hearts of its faint footfalls.

SOME MEN spend the whole prime of their lives in letting down empty buckets into empty wells, and fritter away their age in trying to draw them up again.

IT IS RELATED of the French family of the Duke de Levis, that they have a picture in their chateau in which Noah is represented going into the ark, and carrying under his arm a small trunk on which is written, "Papers belonging to the Levis family."

DEATH OF A STUDENT.—Last Sabbath week Mr. A. W. Munger, of Wisconsin, a student at Hillsdale College, died after a short illness.—*Detroit Tribune, 20th.*

Fire at Portage City.

PORTAGE CITY, Dec. 21—3 P. M.

The steamer Persia sailed to-day for Liverpool. She took out 82 passengers and upwards of $150,000 in specie.

THE NEW MASONIC TEMPLE.—We yesterday inspected the magnificent Hall and suite of rooms in KILBOURN'S Block, on West Water street, about to be occupied by Milwaukee Lodge No. 3 of Free and Accepted Masons.—There are two rooms 78x40 feet, one of which is entirely finished and ready to furnish. Its ceiling is heavily ornamented with the most elaborate Grecian designs in stucco, forming, with the capitals and cornice, the most imposing and beautiful display of interior decoration anywhere to be found in the Western country. The side walls are shaped into a series of slightly sunk arches, and the ceiling over head subdivided into fifteen panels, each profusely laden with scroll and emblematic devices. The arrangement of the Halls with the adjoining ante-rooms and lobby is perfect, and the whole design reflects great credit on the Messrs. GRANT. These magnificent Halls will be thrown open on Tuesday evening, (27th) at 8 o'clock, on which occasion the dedication festival takes place. On this evening the entire ten rooms will be used, and there is no better dancing Hall in the city. The furniture and upholstery are all from the establishment of Mr. SEAMAN, and for richness and excellence of design and finish stands unapproachable. Altogether we think our friends the Masons will have great reasons to pride themselves on their new temple, being, as it is, the most *recherche* establishment in the city.

The festival on Tuesday promises to be an event of more than ordinary interest. The Lodge has taken measures to make the occasion a memorable one, and we have an idea *they* will succeed.

THE SCHOOLS OF THE CITY.—On Friday next, the fall term of the public schools close, with the usual examinations. These exercises will be of great interest to parents and guardians, and will, we hope, be very generally attended. The education of the thousands of children in our city, is a matter of great and vital importance to the people of Milwaukee, and every parent must feel a deep interest in the proficiency which their children attain in their studies.

Through the liberality of the citizens of Milwaukee, we have a school system second, in regularity, order, and excellence, to none in the Union. The buildings are models of architecture, and admirably adapted to the purpose. The course pursued is that which has been selected and approved from among a thousand by the most experienced educators, and the beneficial results are plainly evident to any one who will visit the schools and witness for a short time its workings.

It is gratifying to both teachers and scholars to know that an interest is felt in their progress, and for their sake we hope a large concourse of spectators will be present to witness the closing exercises. The greater portion of the present week will be occupied in examinations, and the vacation for the Holidays will continue until the third day of January, 1860, when the winter term commences.—*News, of yesterday.*

We copy the above just commendation, with a view to remind our readers, that the closing examinations of the fall term will take place to-day and to-morrow. The opportunity is one which parents, tax-payers, and all other citizens interested in the education of the young should not fail to improve.

Teachers and scholars will be equally glad to welcome visitors to the schools. The exercises will continue from 9 A. M. till 12 M. and from 2 to half past 4 P. M.

FIRE.—A fire occurred Wednesday morning, about five o'clock, in a frame building on Clybourn street, between Second and West Water. The flames spread with great rapidity, and before any assistance was rendered, the building, and one adjoining, were consumed.

The former occupants, Mr. JOHN SEIDE, and a German by the name of LEMPKE, are sufferers by the conflagration to the amount of $200 each.

During the confusion, immediately after the outbreak, Mr. SEIDE was informed that his children were in the burning house, and without hesitancy, he rushed into the flames, and while there was overcome by the heat and smoke, and had it not been for the prompt assistance of outsiders must have perished. He lies now in a precarious condition. It was afterwards ascertained that the children were perfectly safe.

There was great delay on the part of the firemen in reaching the scene, whether from the state of the streets or the imperfect alarm, we know not.

CASTING A GAS RETORT.—The Burlington *Gazette* in Racine Co., says that on Wednesday evening last, Deacon Johnson, not discouraged with his previous failure, again attempted the casting of a large retort, for the Racine gas works. The result this time was entirely successful. The *Gazette* adds: "We believe that no other foundry west of Cincinnati, has ever succeeded in casting one of these huge retorts."—*Wisconsin, Dec. 26.*

We are requested to state by Messrs. BLANCHARD & ARNOLD of this city, that the above is not correct, as they cast retorts two years ago in this city for the Gas Works here, and have cast them repeatedly since. Messrs. B. & A. manufacture car wheels, driving wheels and every description of Railroad and Bridge castings.

PICKED UP.—Last evening a man with apparently little life in him and that little all taken up in performing the most hysterical of ague shakes, was picked up and brought into the engine room of the *Sentinel* establishment. There is no doubt had he not been rescued in time there would have been a job for the coroner. Think of a man having the ague and lying on the walk this weather.—Ugh!

CHRISTMAS AND NEW YEAR'S.—As Christmas comes on Sunday, and New Year's on the following Sunday, the Chamber of Commerce and Banks of this city have decided to observe Monday, Dec. 26th, and January 2d, as holidays. This is a proper arrangement, and we doubt not all classes of our citizens will observe these time-honored festivals on the days mentioned. In this establishment we shall do so; and, therefore, no *Sentinel* will be issued on Dec. 27th or January 3d.

BUSINESS MEN are respectfully directed to read the card of J. H. CRAMPTON, which will be found elsewhere. He is agent for the North American Fire Insurance Co., of Hartford, and the New England Fire and Marine Insurance Co., of the same place. We commend him as an efficient and prompt business man, too well known to this community to say aught else. Office No. 12 Wisconsin St.

GO SLOW.—Some of our "fast" young men, and old ones, too, for that matter, pelt through the streets in their cutters, at a three or four minute gait. This ought not to be allowed, and the police should stop it. Drive fast, if you please, through the open country roads, but go slow through the crowded city streets.

A DESPERATE GANG OF VILLAINS BROKEN UP.—A few days since a most desperate band of outlaws were broken up in Michigan by the arrest and confession of one of their members. The members of this band were scattered through the State, and particularly along the line of the Detroit and Milwaukee Railroad.

OYSTERS.—Real Chesapeake Bay Oysters may be had of GEO. W. LEE, corner of Main and Oneida streets. His oysters can not be beat.

SEE ADVERTISEMENT of a key lost, in this morning's issue.

WATER WORKS AND STEAM FIRE ENGINES.—The following propositions were made to the Common Council, at its meeting on Monday evening last. Both were referred to special committees and will, we hope, be formally acted upon by the Board:

To the Honorable the City Council of Milwaukee:

The undersigned respectfully propose to erect and maintain "water-works," and lay down at least, ten miles of leading "water-pipe," for the purpose of conducting and supplying pure lake water to the city of Milwaukee, and the inhabitants thereof, within two years from the 1st of April, A. D. 1860, and thereafter to lay down leading "waterpipe," as the interests of enterprise will warrant, and the demand for the supply of water is required. Provided the donation of land proposed will be granted in fee simple, and the title beyond a question guaranteed, and the exclusive right to use all streets, granted by ordinance, for the purposes, interest and benefit of the "water-works," and also all taxes which may be assessed on the property known as the "water-works" be remitted in favor of the said "water-works" for a term of five years from the completion of the works.

This proposition is submitted upon condition that the city will enter into a contract in writing for the supply of water from the "water-works" herein proposed for public uses along the line of the leading "water-works;" and to pay therefor in quarterly payments, the yearly rental of ten thousand dollars ($10,000) for the term of ten years from the date of the supply of water.

The above is suggested in view of a legal organization being secured under the Statutes of this State, by special or general law, with an authorized capital of five hundred thousand dollars.

WILLIAM BREWSTER,
Of Philadelphia,
Milwaukee, Wis., Dec. 14, 1859.

To the Hon. Mayor, Board of Councilors and Aldermen of the City of Milwaukee:

The undersigned Steam Fire Engine Manufacturers of Seneca Falls, N. Y., propose to deliver to this city one of their improved steam fire engines of capacity to force a 1 1-4 inch stream 220 feet, or a 1 1 8 inch stream 235 feet, or two 7-8 inch streams 200 feet—with a steam pressure of not over 70 lbs to the neb, and to generate a working pressure of steam in from five to eight minutes, also to be capable of supplying two of your first class hand engines with water through leads of hose from 5,000 to 10,000 feet in length.

Said machine to be made strong and to be durable in all its parts, and finished in a good and workmanlike manner, to be furnished with suction hose, discharge pipes, nozzle, wrenches, &c., &c., complete. If upon full and fair trials the machine shall come up to the above guarantee, and the committee selected by your honorable board shall be satisfied that the machine is one which can be relied upon in case of fires, then the city shall accept the machine, and issue to us city bonds or orders, for the sum of $4,000, payable in one year, with interest at 7 per cent. per annum. The city shall also pay the cost of transportation from Seneca Falls, and also furnish us with facilities for storing and running the same while on exhibition.

The above proposition may be varied, so that upon the delivery of the machine (upon the conditions above stated,) the city can pay us $1,000, and have the privilege of running and using said machine six months we agreeing to furnish a competent engineer at the rate of $50 per month, whose salary shall be payable monthly. At the end of that time, it shall be optional with the city to retain the machine and pay us the balance ($3,000 and interest) in city scrip, having one year to run at 7 per cent. interest, or return the machine to us in as good order as when received, ordinary wear and tear excepted.

SIDLEY, MYNDERSE & Co.
Milwaukee, Dec. 19, 1859.

A MILWAUKEE TRICK.—Yesterday morning a German woman appeared at the Police Court, and applied for assistance, stating that she was destitute. Upon inquiry by Justice Aiken, she stated that she had been an inmate of the Poor House at Milwaukee, and that she had been taken to the Marshal's office in that city, where she was furnished with a ticket to come to this city, and informed that upon her arrival here, she would find plenty of work and lots of money. She had been here a day or two, and failing to obtain either work or money, was in a starving condition. Justice Aikin informed her that she had made a terrible mistake in coming from Milwaukee, the city of plenty and lager beer, to the desert land of Chicago. Here the sewing was all done by machines, and the scrubbing by Yankee inventions. He thought the best thing would be to send her back to Milwaukee, and an order was made to that effect.

This is not the first time that our neighboring city of Milwaukee has endeavored to saddle her poor upon this city as winter approached. There have been numerous instances of such impositions, and the present is one of the most barefaced. Let us hope that when this practice of their officials is brought to the knowledge of the good people of Milwaukee, they will have self respect and pride enough to stop it. If Milwaukee cannot take care of her poor, let her say so, and we will favor the raising of a subscription to aid her in that duty. But do not let her stoop to these little and mean ways of shuffling off her responsibilities upon Chicago—a city which she is never tired of reviling and abusing.—*Chicago Dem. Dec. 21.*

MUNICIPAL COURT, Dec. 21.—Wm. Smith, stealing from clothes lines, sent to jail six months.

Patrick Maher, assault and battery; fined $10,00.

James Murphy, drunk; fined $1,00 and costs. Paid.

Patrick Clevers, drunk; fined $1,00 and costs. Paid.

A LATE RESIDENT of this city, long prominent in business, and as an American politician, writing us on business from Milwaukee, whither he not long since removed, says:

"I go the full Republican ticket, and look for certain victory the next heat, if the game is well played."

Of Milwaukee, he says:

"I am much pleased with the city and her future prospects."—*Oswego Com. Times.*

SABBATH SCHOOL FESTIVAL.—The Annual Festival of the Third Ward Episcopal Mission Sabbath School takes place this evening at SIVYER'S Hall. It will be a pleasant affair, no doubt. Friends of the Mission are invited to attend. Donations of food may be sent to the Hall to-day between 10 and 3 o'clock.

THAT BATON.—The Baton presented to Mr. BALATKA by the Musical Society was the workmanship of JULIUS WEBER, 209 East Water street. It certainly reflects great credit on Mr. WEBER. A handsomer, or more artistically designed thing of the kind was never gotten up in this city.

MILWAUKEE HIGH SCHOOL IN THE SECOND WARD.—The closing exercises of the term will occur on Friday, Dec. 23d, from 10 to 12 A. M., and from 2 to 4 P. M. All interested in the school, and friends of education especially, are invited to attend.

HOLIDAY PRESENTS.—Consult the advertising columns of the SENTINEL, if you wish to know where to obtain the choicest gifts for the Holidays. And you that have wares to sell avail yourselves of the SENTINEL columns to let the public know it.

LECTURE.—The Rev. C. F. LE FEVRE will lecture before the Franklin Lyceum, in their hall, on Tuesday, December 27th, at 8 P. M. Subject—"Discovery of America by the Northmen." The proceeds of the lecture will be appropriated towards enlarging the library.

PRIZE BULLOCK.—Mr. EDGERTON trotted out that *fat* ox yesterday, and admiring crowds felt of it, and smacked their lips enthusiastically. It only weighed a trifle over 3,100 lbs—that's considerable weight for one man to move, and yet Mr. LUDINGTON *drew* the whole affair last night.

THE SLEIGHING CARNIVAL.—The seasonable weather keeps the snow good, and everybody seems to be improving it. The streets, yesterday afternoon, were fairly alive with sleighs of all sizes and patterns.

BURK & PITTMAN, of Eagle, bought a lard hog of a Mr. TAYLOR of Mukwonago weighing 525 pounds. Beat that if you can. This is not quite as large as some Wisconsin hogs that we have seen marketed here in former years, but if anybody can beat it this season we should like to know it.

LOST.—In Plymouth Church or in the street, on the 15th inst., a lady's black broadcloth circular, with figured plush trimmings about two and a half inches wide. The finder will be liberally rewarded by leaving the same at this office.

$4,000 MORTGAGE.—J. S. FILLMORE has for sale a $4,000 mortgage upon improved city property, two years to run, and drawn by responsible parties.

WE THINK IT A CAPITAL SUGGESTION that a most sensible way of manifesting a thoughtful affection for a wife and family is to make a holiday present of a policy of Life Insurance, and would urge our readers to step into the office of our Wisconsin Company and get one. dec22d6t

RACINE BUILDING ASSOCIATION.
NOTICE OF ADJOURNMENT.

THE DIRECTORS GIVE NOTICE TO the Shareholders and the Public that over one half the Shares are now taken, which, considering the amount of labor required to make it known, is a very gratifying result; but it is desirable that the whole be sold before the distribution shall take place, and therefore a postponement for a short time is necessary. The Directors respectfully solicit the assistance of the Shareholders and the Public to enable them to make a distribution on the 25th DAY OF JANUARY NEXT, to which day it is postponed—Many persons, desirous of, or intending to become shareholders, wait till the last day before they invest—if all should do so, the embarrassments in the way of a full and fair distribution at the earliest day practicable, must be apparent to every one. We hope no further postponement will be necessary, and that all intending to become Shareholders will do so at once. For Shares and Programmes apply to

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Washington Matters.

WASHINGTON, Dec. 21—3 P. M.

The Republican Senatorial caucus yesterday assigned Mr. Sumner, of Massachusetts, to the Committee on Foreign Relations.

At the adjourned meeting, of Americans, held last evening, a committee of ten were appointed to confer with the National American and National Whig Committees upon the best course to be pursued in the coming Presidential contest. The following gentlemen compose the committee:

J. J. Crittenden, of Kentucky, G. Briggs, of New York; J. M. Harris, of Maryland; C. M. Conrad, of Louisiana; R. G. Rockwell, of Connecticut; Jere. Clemens and E. Etheridge, of Tennessee; G. A. Gilmer, of North Carolina, E. R. Jewett, of New York; and Joshua Hill, of Georgia.

WASHINGTON, Dec. 21.

The American and Whig opposition members in caucus this morning agreed to vote for Mr. Boteler. The expediency of having a resolution offered by one of their number declaring Mr. Milson, of Va, Speaker, was considered but not adopted.

The Southern Student Movement.

PHILADELPHIA, Dec. 21—9 P. M.

A morning paper states that a despatch was received last evening from several Southern Senators, advising the students not to mix in politics, but to stay where they are. It is also reported that the fathers of some of the students telegraphed to them not to join in the movement. It is almost certain, however, that two hundred will leave to-night, 150 of whom stop at Richmond.

No Trouble at Brownsville.

WASHINGTON, Dec. 21—3 P. M.

The war department received a letter yesterday from Capt. Ricketts, dated Brownsville, Dec. 1st, which contradicts the reports with regard to any trouble there. There are no signs of any meditated attack upon Brownsville, and the Captain thinks the whole affair has been much exaggerated. He refers the origin of the difficulties to a falling out between parties concerning private affairs.

Will not Accept the Attorneyship.

NEW YORK, Dec 21—3 P. M.

The commission appointing Judge Parker to the District Attorneyship, has reached this city, but it is stated that he will not accept the office.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Congressional Proceedings.

WASHINGTON, Dec. 21—3 P. M.

HOUSE.—Davidson, of La., said be saw no use for indulging in harsh language, and certainly had no desire to hurt the feelings of any gentleman. He liked to have freedom of speech for himself, and therefore would never trespass on that right as applied to others.—It was a grave error to say that the South wants to force Slavery into the Territories.—All they ask, and what they are determined to have, is that their rights be protected in the common territories of the country. He belonged to the National Democracy—if troubles exist in a party, let them be settled, he said, inside the organization.

He was willing to let by-gones be by-gones. While he wanted the House organized, he would never consent to do it by the election of a man whose mantle is stained with blood spilt in sedition. He never believed in the doctrine of secession, and did not believe in it now, but when a people were aggrieved, and their rights trampled upon without redress, there was no other remedy. It was no longer the politicians sent there to manufacture public opinion to talk about this grievous evil—it was the whole Southern heart which comes up with one voice so say—Stop! You must stop where you are, or the objects for which the confederation was formed, must cease.

He would candidly tell the gentlemen, that unless such raids as those of John Brown shall be stopped, there will be war between the North and South. He argued that the Republicans were here as a party to strike down the rights of the Southern States.—He read from the compendium of Helper's book, to show that the question of slavery must be disposed of and absolutely abolished, as the true policy of the South.

In view of this kind of settlement, did not John Brown believe that Mr. Sherman and others would stand by him. Was it to be expected that his constituents and the State of Louisiana would consent that this Union should be governed by a party which advised slaves to rise in the South and commit murder. He charged that the representatives of the North, who advised this thing, have not had the nerve, in the face of a decent community, either to endorse or gainsay the teachings of Helper's book.

Mr. Cobb of Alabama made a good natured speech, he asked the Republicans whether they had no other member than Mr. Sherman to fill the chair, a member who had not signed the endorsement of the Helper book. He advised a union of the Democrats and South Americans and conservatives.

Mr. Etheridge of Tennessee, in reply to Mr. Cobb, desired to know where the votes to elect a Speaker on the basis proposed by the latter were to come from.

Mr. Cobb rejoined we will get the Democrats; you South Americans come over and help us and we think we can persuade others to do likewise. (Laughter.)

Mr. Etheridge said he and his friends had refused to entertain the proposition for going over to the Democrats, unless they can show that by going over an election could be effected. It was demonstrated that the Democrats can not unite their votes on any one candidate. There was not a man on the Democratic side who can, as claimed, obtain ninety-three votes. A week ago, he said the Southern Opposition could put one of their number, Mr. Gilmer, in a position where the Democrats could elect him. They could now put one of their friends in a similar position. Could the gent from Alabama place one of his friends in such a position, that the Southern Opposition, by going over, can elect him? When Mr. Cobb could show this, then it would be time for the Opposition to consider the proposition.

Cobb—I wanted a straight-forward answer to my question—will he vote for the Democratic nominee if we can get ninety-three votes for him?

Etheridge—We have said this morning among ourselves that whenever the Democrats conclude that they can concentrate their vote, we will consider the proposition.

Cobb—What will you do?

Etheridge—I will vote for your candidate in a certain contingency—if my vote will elect him.

After further conversation between Etheridge and Cobb, Boteler rose and was listened to with marked attention. He said his humble name had been before the House, but not through any act of his own. He did not presume to aspire to the Speaker's chair. He was here for the first time, without parliamentary experience, and unacquainted with the business of the House, and, therefore, had no right or reason to expect any such tokens of consideration and regard as those he had received.

He desired to express his grateful acknowledgements to his political friends who had stood by him, and most especially to those from whom he had heretofore differed. He desired to express to them his gratitude not in the language of conventions, but in those simple words which leap from the heart to lip. He withdrew from the contest to name a gentlemen who, he was sure, would be acceptable to both sides—he meant the conservative portion of the House, who battle for the constitution—and to protect it from the angry surges produced by the persistent course of those who call themselves Republicans. He nominated Millson, of Va., trusting that he would claim the support of those who are not only conservative in name but in conduct also. [Applause.]

Impatient cries of "vote!" "ballot!"

Mr. Cobb.—I trust the object of harmony is accomplished, and since it seems that organization can now be affected I am done.

Much anxiety was manifested to vote, but Mr. Clark of N. Y. rose, saying he proposed to address the House directly on the question of organization. While he did not expect to show how organization could be effected, he thought he would say he would show how an organization could not be effected.

Mr Adrian—If you can bring about an organization, I hope you will speak that word; several voices (so do I, let's hear it.)

Mr. Clark resuming said he had been called an Anti-Lecompton man and sometimes accused of mercenary bargaining for sale of votes for Speaker. As to this published slander on him and his brother mercenaries, he had long ago reached that point of political desperation when nothing said or written by living man could in the slightest degree influence his actions in organization of the House or any other action.

While he claimed the right to speak for himself, he utterly disclaimed the right of others who were acting with him in defining his position. He called himself a State Rights Democrat and said that he triumphed over organization in his district where federal and municipal officers were combined to defeat him. Holding no allegiance to any man or organization, he was as free as the flag that waved over the capitol. He had opposed Bocock because he was the candidate of the Administration.

McClernand said some gent had voted for him, without the slightest solicitation on his part, and, as many knew, contrary to his wishes. He begged his friends—after thanking them for their kind regard—to vote for him no longer. He then complimented Millson as a patriot and statesman, and entirely capable of discharging the duties of the chair.

17th ballot.—Whole number of votes 226—necessary to a choice 114. Sherman 106, Millson 96, Gilmer 6, Etheridge 7, Davis, 4, scattering 7.

Winslow desired one more ballot, and if no election was made, he intended to offer a resolution, that from and after to-morrow, as the gentlemen might choose, no further vote for Speaker be taken till the 5th of Jan.

Burnett said the reason why he appealed to Etheridge to unite on the vote for Millson, was because he wanted to see a united South rebuke the endorsers of Helper's book.

Etheridge ignored all political or geographical lines, and until Burnett could rally the Democratic forces, he should not arraign him who was elected in defiance of that party. (Applause.)

Mr. Burnett spoke of the love of Kentucky for the Union, which was applauded, and asked his colleague, Anderson, why he did not vote for Millson. Anderson replied he was born and raised a Whig and had voted consistently for an American and intended to do so to the end of the contest. He would not vote for Millson, because he was a Democrat; and could not vote for Sherman, because he was a Republican. Further, he (Anderson) was in favor of the Kansas and Nebraska Bill, and could not, therefore, vote for Millson, because Millson voted against that bill. (Laughter and applause.)

Mr. Burnett, in reply, said that Etheridge was here at the time, and, with Millson, voted against the Kansas-Nebraska bill, and yet his colleague could vote for Etheridge as Speaker. (Laughter and applause.)

Mr. Hill, speaking with much energy, said that when he yielded the floor to Burnett, he did not expect the latter would stigmatize the organization to which he belonged as a miserable Know-Nothing party. He had voted for Millson, because he respected him for voting against the Kansas-Nebraska bill, and because Millson was incapable of appointing any white-washing committee.

He (Hill) came here against the Opposition Democratic party, and with sentiments rather peculiar and rather more Southern than those expressed by Mr. Burnett, but would never, so help him God, cause it to destroy a structure under which we live, merely because a man with objectionable political principles should be elected to the Presidency. He would wait till some overt act was committed before he would consent to strike a fatal blow. He was a Constitutional man and no other. His remarks were enthusiastically applauded.

Mr. Burnett apologized by saying that if in the heat of debate he had used the expression "miserable Know-Nothing party," he would take it back.

Mr. Hill said he came here with a view of breaking up both the Republican and Democratic parties and erecting on the ruins a better party.

Mr. Anderson of Kentucky has the floor for to-morrow. Adjourned.

On motion of Foot a resolution was adopted, instructing the Committee on Finances to inquire into the practicability of adopting some more effectual way of warming public buildings of the Government throughout the country, and of making appropriations for the purpose of accomplishing the object.

Bayard introduced several bills which failed to receive action in last Congress. They relate to administration of justice in criminal cases, appeals and writs of error, to supply vacancies in certain offices, concerning seaman, and amending an act regulating carriage of passengers in steamships and other vessels. After an Executive Session the Senate adjourned.

THE SENTINEL.
DAILY, TRI-WEEKLY & WEEKLY.
RUFUS KING, EDITOR.
THURSDAY MORNING, DEC. 22, 1859.

The Effect of a Union Meeting.

A few days since the good people of Philadelphia, assembled in large numbers to protest their devotion to the Union, their abhorrence of "JOHN BROWN," and their sympathy for the F. F. V's under their present afflictions. The proceedings of this meeting were extensively published and Philadelphia was held up to Southern admiration as eminently sound on the great issue of the day. The telegraph, yesterday, brought us a response from the South to this Union tender from the City of Brotherly Love. It reads thus:

> PHILADELPHIA, Dec. 20.
>
> A meeting of Southern medical students was held today. They resolved to secede in a body from the schools in this city and go to Southern Colleges. There was a large attendance. Jefferson College loses 200, and Pennsylvania College 100 students. They will proceed in a body to-morrow night in a special train from the Baltimore depot. The proceedings were conducted throughout with great decorum and propriety, and no exhibition of violent feeling. A number will go to the Richmond Medical College.
>
> It appears that the officers of some of the Southern Medical Colleges have made overtures to the students attending the colleges here for the purpose of inducing them to desert their schools to proceed to the institutions in the South.

Thus it appears that "Union-saving" in Philadelphia did not pay. Either the South distrusted their professions, or are determined to cut their acquaintance.

Who are the Aggressors?

> We observe that our cotemporaries persist in falsely charging the South of being the aggressor, in the difficulties which have unfortunately sprung up between that section of the Union and our own. The South has been guilty of some great indiscretions, at which we hardly know whether to laugh or weep, but they are venial errors, in no instance seriously or detrimentally affecting any other portion of the country.—*News of yesterday.*

The Doughface organs are ready enough to apologize for the South and to represent the North as the aggressor in the difficulties between these two sections of the Republic.—But the record of the last ten years tells a very different story. The repeal of the Missouri Compromise; the enactment of the Fugitive Slave Law; the passage of the Kansas-Nebraska Act; the Dred Scott decision; and the Border Ruffian invasion of Kansas, were all so many "aggressions" on the part of the South, upon the rights, the interests and the convictions of the people of the North. If these are what the *News* calls "indiscretions," the raid of JOHN BROWN into Virginia may fairly be classed as a "venial error," since it was one of the consequences of the "aggressions" referred to.

A Real Union Meeting.

The *News* calls for a public meeting in this city to gratify the South and save the Union. If the *News* questions the fidelity of its own party to the Constitution and Union, it is eminently proper that they should have an opportunity of self-vindication. So far as the Republicans, however, are concerned, we know of no necessity for such a movement; since we are yet to find in the Republican ranks, the first man in favor of Secession, or Disunion.

But if such a meeting is deemed indispensable to save—not the Union—but the Democratic party, we propose to the *News* that it should be made a *real* Union meeting, of men of all parties and persuasions, to denounce Secession, Disunion, and Treason wherever, or by whomsoever they are preached, or practiced, in any part of our common country.

A Long Line of Railroad.

The following advertisement explains itself:

> NOTICE.—Grand Trunk Railway Company of Canada, open 1,112 miles. The Victory Bridge at Montreal, on a line of the Grand Trunk Railway, will be opened for through passenger and freight trains to Portland and Boston on and after Monday the 19th inst.

By means of the Detroit and Milwaukee Railroad and our Steam Ferry, Milwaukee and Wisconsin are brought into direct communication with the "Grand Trunk" road to Portland. It is destined to become a most important "feeder" to the Northwest, and our city and State must eventually reap a large proportion of the benefits resulting from the completion of this grand "Air Line," between the Atlantic sea-board and the populous and productive interior.

PUBLIC LIBRARIES IN THE UNITED STATES.—Mr. S. Rhees, Clerk of the Smithsonian Institute, has published a Manual of Public Libraries, Institutions and Societies in the United States, from which we gather some interesting statistics. The whole number of libraries is 40,890, containing 12,720,686 volumes. Of the public libraries there are 1,297, containing 4,280,866 volumes. Of these, New York has 750,421 volumes, and Massachusetts 632,800. Pennsylvania ranks next with 467,716 volumes. A comparison of the number of volumes in public libraries in the larger cities shows New York has 346,185; Philadelphia 271,081; Boston 258,079. The Astor library is the largest public library in the country, containing eighty thousand volumes, six thousand more than the next in size, that of Harvard University. One fact worthy of remark is that of 4,008,081 volumes in the public libraries of all the States, (omitting the District of Columbia, which contains 272,835,) there are 3,103,085 in those of the free States, and 904,947 in those of the slaves States.

THE BANK OF TECUMSEH, MICHIGAN.—A despatch in the Chicago papers, a day, or two since, stated that the notes of the Bank of Tecumseh, Michigan, had been thrown out. Thereupon the Cashier telegraphs as follows to the Chicago *Tribune:*

> MONROE, Dec. 19, 1859.
>
> *Editors Press and Tribune:*—I have noticed your informant's communication relative to the Bank of Tecumseh. Its notes are promptly redeemed, and have not been discredited. W. W. CLARK, Cashier.

LAW AGAINST BILLIARDS.—The Legislature of Vermont has passed a law against billiards, which provides that the selectmen in the several towns in the State, shall, whenever in their opinion the public good requires it, forbid any game or play upon any billiard table in the respective towns. The penalty affixed for playing upon a table is twenty dollars a day.

PEKIN.—A correspondent of the New York *Journal of Commerce*, writing from Pekin, China, says the population of that city is so vast that he is prepared to admit any number short of the infinite. The Chinese claim three millions. Pekin is almost exactly in the latitude of Philadelphia.

PRESIDENTIAL.—On looking at the head of our columns, the readers of the *Times* will see that we have placed there the names of William H. Seward, of New York, and Edward Bates, of Missouri, for President and Vice President of the United States. We do this, however, subject to the decision of the Republican National Convention. We believe that William H. Seward is the unanimous choice of the Republicans of Wisconsin for the high office of President; and we believe Edward Bates will be equally acceptable for Vice President.

Of William H. Seward it is unnecessary for us to speak. His history thus far is written! All men can read it for themselves. Commanding the respect of the South for his unbending integrity, intellectual attainments and pure patriotism, his election would pour oil on the troubled waters.

Of Edward Bates it is equally unnecessary we should speak. Suffice it to say, he is right on the extension of Slavery, and Missouri asks that his name be on the Presidential ticket. As a Wisconsin Republican, we are willing it should be. We do not agree with Mr. Bates in all things, but his political opinions are such that we think the Republican party can place him on the ticket with Seward and give him a cordial support.—*Viroqua Times, Dec. 15.*

A FOREIGN EXCHANGE gives an account of a curious sentence which has been passed at Unterwalden, Switzerland: A prisoner was put to the bar charged with disturbing the public order. The offence being proved, he was sentenced to a month's imprisonment, and to a regular attendance at the morning and afternoon religious services for two years.

Who are the Disunionists?—The Contrast.

THOMAS S. BOCOCK, of Virginia, is supported for Speaker by every Democratic member of the House of Representatives, and yet he and his friends persistently refuse to answer whether he is in favor of breaking up the Union, in case the Republicans should elect their candidate in 1860. With JOHN SHERMAN, the Republican candidate, there is no reserve. He does not hesitate to declare that he will sustain the Union, even if Gov. WISE or JEFFERSON DAVIS should be elected President. A true Union man has no reservations, but it is with him as with WEBSTER, "one Union, one Constitution, and one destiny." Mr. ETHERIDGE, a member of Congress from Tennessee, thoughtfully expressed the difference between the two parties:—*Wisconsin.*

"Gentlemen," said he, "I am a Union man. My constituents are Union people; they are old Clay Whigs, who love the Constitution and the American Union. They are conservative men. But these Democrats with whom we are invited to unite are *Disunionists*. They hate the Union and seek pretexts to destroy it. For the whole past week they have spouted treason against the confederacy; they have preached Disunion in almost every speech made on their side of the House. While on the side of the Republicans there has not proceeded a disloyal sentiment. All the Republican speeches have been on the side of the Union and the Constitution. The Republicans have shown themselves to be conservative men, while the Democrats are the ultraists and fanatics.—Who have applauded the Disunion sentiments uttered in debate? The Democrats. Who have hissed the Union sentiments spoken in that Hall? The Democrats. And gentlemen, let me ask you who hissed the Disunion arguments? Was it not the Republicans? Who cheered the patriotic, Union loving remarks that fell from the lips of Americans? Was it not the Republicans?

The Republicans have convinced me and every other candid patriotic man that they are national and conservative, and that the Democrats have proved themselves, by their fanatical speeches and factious conduct, to be sectional, ultra and disloyal to to the Union. How is it possible for us to unite with such men? The Administration is notoriously base and corrupt. It is the worst and most imbecile that ever existed from the foundation of this government. Its professions of love for the Union are all moonshine and humbug. It is dangerous to the well being of the nation to permit this rotten, traitorous party to remain any longer in control of the government. The perpetuity of the Union demand that they be speedily ousted from power.—*Wisconsin.*

Northern and Southern Democrats in the House.

The motives which actuate some of the representatives of the South in the factious opposition they offer to the organization of the House are not secret. These gentlemen take no pains to conceal that they are downright disunionists. By what mental process they have come to their unfortunate views it boots us not to inquire. We have only to do with the fact not the courses that have produced it. Were we to attempt to discuss everything that has tended to disseminate secession doctrines at the South, and to make men secessionists, we should be engaged in a task that would compel us to review the history of our government from its beginning down to the present hour. But one thing we may say in passing, and that is that the teachings of Abolitionists, few in number, and weak in influence, has not had that effect at the South which is sometimes attributed to it; but where secession sentiments prevail they are based on the conviction that the interests of the South, or rather of the slaveholders of that section, would be benefitted by a separation of the slave from the free States, and the establishment of a Southern Confederacy. This particular argument is dwelt on at great length over many a dinner table in the slave States, and in many a verandah in South Carolina and Mississippi.

Of course when the matter is publicly discussed it is not from this dollar and cent point of view. The advocates of disunion, whether through the newspapers or in Congress, or even in the Legislatures of the southern States, (in some of which secession is advocated with an ardor that would surprise northern readers, could they but see a full report of the proceedings,) without ignoring the pecuniary advantages that are to redound to the south, dwell more particularly on the blessings that arise from negro slavery on the score of its high moral character, its civilized tendency, and much more to the same effect; and then they charge that this, their favorite institution, is being evaded, and the rights of the south trampled on, and so they work themselves into a big passion. But in the end the argument resolves itself into this: the secessionists believe that the south lays the golden eggs which the north annually pockets, and they are determined to put a stop to a game where one side is always the winner.

It is an easy thing to show that of the two sections, the South has derived at least as much benefit from the Union as the North, and, we believe, even more. But any reasoning would be thrown away on those gentlemen who have already made up their minds to the contrary, and put cotton in their ears that they may not hear. We leave them to the enjoyment of their opinion; or rather we congratulate them on the skill and energy they display in using the means by which they seek the end they desire. They are certainly wise in their generation. Sectional agitation they perceive helps them, and so they take good care to make up a sectional issue whenever it is practicable; and failing that, get up something resembling the discussion that is just now delaying the organization of the House of Representatives. The conduct of these Representatives is consistent enough. The act is in keeping with the thought. We might complain, to be sure, if disposed to carp, at some unfairness in the attempt to impute sentiments to the North which we heartily disclaim. But we pass that by as a subsidiary incident in the war to the knife which secessionists are waging on the Union. In desperate extremity men will use the weapon that comes readiest to hand, no matter what it is.

But how can Southern members of Congress, who have about them no taint of secession, permit themselves to be led by men who are striking at the Union? Is the interest, or supposed interest, of Virginia, of North Carolina, of Kentucky, of Tennessee, of Missouri, identical with South Carolina, Alabama, or Mississippi? Or if representatives from these States are led away by their sympathy for Slavery, how is it that northern men can be found to play into the hands of men of extreme pro-slavery views, who are destitute of all national feeling? A representative from Alabama or Mississippi, who scarcely cares to conceal that he is a disunionist, may throw himself back, with some appearance of dignity, on the interest, as he chooses to consider it, of his section. But the Northern Administration Democrat has no such resource. His motives are those of a miserable partizan expediency, or a desire of personal advancement and emolument; or a time-serving disposition that makes it at once easy for him to submit to dictation, however unreasonable, and impossible for him to act on principles, however just, for fear of the consequences that may follow.—*Philadelphia North American.*

THE PRESIDENT AT HOME.—The Washington correspondent of the New York *Commercial Advertiser* thus writes:

Mr. Buchanan enjoys his usual robust health, the result of regular and temperate habits. No matter what may happen, he rises early, reads the newspapers, breakfasts, transacts business, takes a walk, dines plainly, receives visitors, and goes to bed at ten o'clock. His niece, who presides over the household department, is "at home" every Saturday to recive such ladies as may choose to call. Then there will soon be an evening reception once a fortnight, with the weekly official dinners. The diplomatic corps have already been around the table in the large dinner room; next will come the Justices of the Superior Court, and then the Senators and Representatives, with the ladies accompanying them, thirty at a time. Such are the ceremonials of our "Republican Court."

OBEYING ORDERS.—We understand that the managers of the Grand Trunk Railway, last year, desiring a large quantity of axes for use along the line of their road, and having no confidence in American mechanics, set one of their scientific men to make a pattern of the axes required. The pattern was in due time completed and sent to England, with an order for 2,500 axes after the pattern sent. The house receiving the order went immediately to work to fill it, and a few months ago shipped to the managers of the road at Montreal the axes as ordered. Upon receiving their property, however, the scientific men found that not one ax out of the whole 2,500 had a hole in it to receive the handle. They were made according to the order, "exactly like the pattern." They have these axes for sale now in Montreal.—*Port Huron Press.*

A YOUNG MOTHER.—An Italian girl, only thirteen years of age, came up from New Orleans this morning on one of the boats, in company with some of her country people. As she came off the boat with a child in her arms, her youthful appearance attracted our attention, and, on inquiry, we learned she was actually a mother at that early age.—Her husband is twenty-five years old, and is living in New Orleans. The young mother presented a funny appearance with the child in her arms. Her name is Marguerite Faello.—*St. Louis Bulletin, 30th ult.*

SETTLEMENTS ON THE RED RIVER.—A correspondent of the Philadelphia *North American* speaks thus flatteringly of the settlements in the Northwest:

The population along the Red River, Lake Winnepeg and Skatchewan, number some thirty thousand, composed of the retired employees of the Hudson Bay Company and their families. The Selkirk settlement being the most important, a description of the settlers there will suffice. We have no hesitancy in declaring that no settlement of the same extent, anywhere west of the Mississippi river, can boast of so much real wealth, intelligence, moral and religious worth.—Numbering among them some of the finest scholars that Oxford and Cambridge ever produced, the past and present policy of the Hudson Bay Company precluded the appointment of any agents, commissioners or managers, but such as were well recommended by their educational qualifications. Thus an elevated tone has always characterized these employees. Not only were they encouraged to go to this supposed inhospitable clime by liberal salaries, but large bonuses were freely given to foster honesty and trustworthiness. This liberal profusion enabled them to retire to private life in a few years, with wealth. Most of them have settled at Selkirk, where the society is select, in the enjoyment of liberally-endowed institutions of education, and in the midst of the most fruitful country on the American continent. This may appear an extravagant expression, but the facts will bear me out in using it. The soil is a rich loam, from three to ten feet in thickness, of a fertility unparalleled. Forty bushels of wheat is an ordinary yield to the acre, and fifty bushels not uncommon. In rare instances sixty have been produced. All other cereals grow equally luxuriant. Grasses produce well, and any amount of hay can be secured. The first thing that attracts the eye of the visitor is the immense herds of domestic cattle and horses, roaming at pleasure over the broad extended plains. The rich, juicy pastures yield a fatness that cannot be rivalled by persevering feeding of grain. As you approach the villages on a Sabbath morn, the well-remembered peal of a bell reverberates from the neat church steeple, and for once you feel as if you had at last reached a land of Christians and of church privileges. Selkirk may justly be said to be a moral oasis amid a vast desert of heathenism.

INSECTS AND THEIR HUMAN PREY.—In Africa there is a worm called the Guinea worm, which buries itself in the flesh of man. It is long, slender and round, like a fiddle string; its length varies from six inches to twelve feet. The British soldiers stationed at Bombay were frequently attacked by it—out of 360 men 129 were attacked. When it introduces itself into the flesh, it is a very minute parasite, not more than 1-60th part of an inch in length, and exists on low muddy shores. This little intruder now grows immensely, and becomes the parent of a numerous offspring. It produces itching, and a crawling sensation, and finally a boil forms, and when it breaks, the head of the animal protrudes, which is then caught and gently extracted, care being taken not to break it, otherwise, serious and even fatal effects are apt to follow. The extraction is very tedious work. The natives cut the skin when they are near the surface, and then extract them. Medical writers describe no less than twenty varieties of parasites, which infest the human system.

It is a notorious fact that numerous parasites crawl over the surface, burrow beneath the skin, nestle in our entrails, and riot and propogate their kind in every corner of our frames; and scarcely a tissue or an organ but is occasionally profaned by their inroads.—Each has also its special domicil; one chooses the heart for its place of abode, another inhabits the arteries, a third the kidneys. Myriads of minute worms have been found coiled up in the muscles. A little fluke, very much like a miniature flounder, lives, steeped in gall, in the liver. If the skin of the nose be squeezed, a cheesy matter will exude, and if examined by a microscope ten to one several animalcules, extremely minute, but of a complicated structure, will be seen. They are at present in the majority of living persons, and are less than one hundredth part of an inch in length, have a head, chest, abdomen, eight legs, and very movable jaws. By recent researches it has been proven beyond a doubt that a small insect is the cause of the itch; and by skillful management it can be caught and seen under a microscope. It seems a strange and humiliating fact that the human body should provide food and habitation for so many and such varieties of these inferior creatures.

DR. BENJAMIN FRANKLIN.—We perceive that a discussion has been raised in one of the English papers, as to whether Dr. Franklin was, or was not an infidel. Whoever considers the American philosopher as atheistical, commits a great error, and exposes unpardonable ignorance. At the opening of the National Convention for framing the present American Constitution, Dr. Franklin, among other sentiments, said: "I have lived, sir, a long time (eighty-one years) and the longer I live, the more convincing proofs I see of this truth, that God governs in the affairs of man. And if a sparrow cannot fall to the ground without his notice, is it probable that an empire can rise without his aid? We have been assured, sir, in the sacred writings, that unless the Lord build the house, they labor in vain that build it. I firmly believe this, and I also believe, that, without His concurring aid, we shall succeed in this political building no better than the builders of Babel: we shall be divided by our little, partial, local interests; our projects will be confounded, and we ourselves become a reproach and a by-word down to future ages. And what is worse, mankind may hereafter, from this unfortunate instance, despair of establishing government by human wisdom, and leave it to chance, war, or conquest. I therefore beg leave to move, that, henceforth, prayers imploring the assistance of Heaven, and its blessings upon our deliberations, be held in this assembly every morning before we proceed to business; and that one or more of the clergy of this city be requested to officiate in that service." Surely the above must be sufficient to satisfy any man, as to Franklin's sincere religious principles and belief.—*Phil. Inquirer.*

A TERRIBLE MISSILE—MOLTEN IRON.—The experiments with hollow shells filled with molten iron from a cupola furnace of new construction were resumed at Portsmouth (Eng.) on Thursday. On the former occasion, it will be in the remembrance of our readers, the shells were filled on board the Colossus, in the steam basin at Portsmouth, and fired from a gun on board the Excellent gunnery ship, a considerable time elapsing between the shell being filled and its being fired at the object, rendering the result of the experiment futile for the purpose intended. Since that time, the Stork gunboat, tender to the Excellent, has been fitted with one of the cupola furnaces, and from this vessel the firing took place on Thursday. The results were of the most satisfactory nature, proving the fearful power of the missile on its effecting a lodgment in any part of a ship; as shortly after the firing commenced, the Undaunted frigate, moored on the mud of Porchester Lake, (which was the object fired at,) burst out into a mass of flame from the fore channels right aft, and burnt for some time furiously. The Stork then gave her some shots near her water line, and sank her as well as the depth of water would allow. A floating fire engine was then afterwards towed up by a steam tug from the dockyard to put out the remainder of the fire. From the appearance of the Undaunted when the tide had left her, the fire must have obtained great hold upon her before it was finally extinguished.—*Manchester Guardian, Nov. 26.*

"LO! THE POOR INDIAN."—Just above Beckerville, in this county, at the present time, may be found encamped among a handful of others an Indian and a squaw who have each seen the snows of more than one hundred winters—old Black Bird, a Pottawattomie, who has attained the age of 103 years, and the squaw of old Blue Eye, who is about six months Black Bird's junior. The latter remembers his tribe when in all their prosperity and valor as warriors, when in numbers and strength they were like the tall oaks of the forest; but now he beholds in their place a mere handful of enervated, dispirited followers, over whom he still presides as chief, though the glory of the sceptre has sadly departed. Black Bird, under his weight of years still exhibits the characteristics of a true Indian. His locks, that once vied with the raven's wing, are now thickly frosted with the snows of age, yet his form is erect, his eye keen and piercing, his tread firm and elastic, and he follows the deer with all the enthusiasm of the youthful hunter. Black Bird is now, as he has ever been, the friend of the white man.—*Grand Haven News.*

HOW TO ARRANGE THE HAIR.—The latest fashion in hair is to fold it back in a series of glossy bandeaux, and then pass the two long ends round the head in a sort of double coronal. Another favorite style is to draw it all back, braiding the back hair, and arranging it over the top of the head. Both of these modes leave no plaits for the back, and clusters of roses, or velvet bows with long streamers, are placed there to hide the deficiencies. Recently all hair ornaments were disposed of at the sides of the head, but now the back is chiefly ornamented with Greek caps and gay little nets. One or two of our belles have taken a fancy to cut the hair and part it twice on the top with a little ridge of curls between the partings, after the manner of fashionable young men, and it really does'nt look bad on a sparkling brunette or a round-faced girl of seventeen. Those who are *passe* cannot afford to take such liberties with their personal appearance.

BLUNDERS OF VISION.—It has recently been ascertained by a person who has paid especial attention to the subject of defective vision, that one individual in every fifty is decidedly color blind, and that one in every twenty may be affected. A writer in the Electric Review mentions the following fact:

"Some years ago a party of gentlemen were discussing the question of blindness over their wine in the mansion of a northern noble. It was stated by one of the company that persons had been known to lose the power of vision, so far as one eye was concerned, long before they had any consciousness of the defect. Polite doubts were expressed on the point. Every one would admit that a man might labor under a mental or moral cataract without being particularly alive to the infirmity, but physical opacity was too conspicuous an evil to be long concealed. More in jest than with any suspicion of the result, the loudest of the skeptics was requested to ascertain whether his own organs were "all right." Closing one eye, he exclaimed, with a start of horror:—"Why, bless me, I can scarcely see at all!" He himself was in the very predicament he had refused to accredit.

TO BE ANSWERED.—A few days since, in going to my back yard, where a fresh killed pig had just been hung up, a man who knew I was curious in such matters said, "There, now, there's the mark as Satan made it in the herd of swine before they ran down the cliffs into the sea," pointing to five dark marks on the skin of the inside of each fore leg. On my questioning him, he assured he had never seen a pig without them (I have since looked at five, and they had the same:) and he said the tradition was that all swine had them ever since the casting out of the devils which destroyed the herd in the sea? How do anatomists account for it?—*Notes and Queries.*

ABOUT TWO WISE MEN.—

There's "Governor Wise" and an "æronaut Wise,"
But to say "which is which" might now puzzle the coons;
Since, with *gas* much inflated they both seek to *rise*,
And they both have already "gone up in balloons."

PILES! PILES!! PILES!!!

What is it? How Cured?

THOUSANDS OF PERSONS HAVE PILES—suffer for years with the disease—yet few know what it is, or how it is cured. Every case of Piles, whether manifested in the form of external tumors, frequent bleeding, or in violent itching and irritation, depends essentially upon congestion of the abdominal venous circulation. This produces the engorgement dilation of the veins, formation of tumors, hemorrhages, pain and suffering; and the disease can only be fundamentally cured by medicines which, taken internally, relieve this abdominal venous congestion. Hence, ointments, washes, and even injections, are ineffectual. HUMPHREYS' HOMEOPATHIC PILE SPECIFIC, a simple sugar pill, taken two or three times per day, cures the disease by curing the condition upon which the disease depends. Hundreds have been cured by it, even of the most obstinate cases. All will be promptly benefitted by it. Price 50 cents a box.

N. B.—A full set of HUMPHREYS' HOMEOPATHIC SPECIFICS, with Book of Directions, and twenty remedies, in large 3-drachm vials, and morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book, $2.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address,

MAUDE CLARE.

The fields were white with lily-buds,
While gleamed the lilied beck;
Each mated pigeon plumed the pomp
Of his metallic neck.

She followed his bride into the church
With a lofty step and mien:
His bride was like a village maid,
Maud Clare was like a queen.

The minstrels made loud marriage din;
Each guest sat in his place,
To eat and drink, and wish good luck,
And do the wedding grace.

To eat and drink, and wish good luck,
To sing, and laugh, and jest;
One only neither ate nor drank,
Nor clasp'd her hands, nor bless'd.

"Son Thomas," his lady mother said,
With smiles, almost with tears,
"May Nell and you both live as true
As we have done for years;

"Your father, thirty years ago,
Had just your tale to tell;
But he was not so pale as you,
Nor I so pale as Nell."

My lord was pale with inward strife,
And Nell was pale with pride,
My lord gazed long on pale Maude Clare,
Or ever he kiss'd the bride.

No eyes were fix'd upon the bride,
Or on the bridegroom more,
All eyes were fix'd on grand Maude Clare,
While she looked straight before.

"Lo I have brought my gift, my lord,
Have brought my gift," she said—
"To bless the hearth, to bless the board,
To bless the marriage-bed.

"Here's my half of the golden chain
You wore about your neck,
That day we waded ankle-deep
For lilies in the beck:

"Here's my half of the faded leaves
We pluck'd from the budding bough
With feet amongst the lily leaves—
The lilies are budding now."

He strove to match her scorn with scorn,
He falter'd in his place;
"Lady," he said, "Maude Clare," he said,
"Maude Clare,"—and hid his face.

She turned to Nell: "My Lady Nell,
I have a gift for you,
Tho', were it fruit, the bloom were gone,
Or, were it flowers, the dew.

"Take my share of a fickle heart,
Mine of a paltry love,
Take it, or leave it, as you will,
I wash my hands thereof."

"And what you leave," said Nell, "I'll take,
And what you spurn, I'll wear,
For he's my lord for better or worse,
And him I love, Maude Clare.

"Yea, though you're taller by the head,
More wise, and much more fair;
I'll love him till he loves me best,
Me best of all, Maude Clare!"
—*Once a Week.*

Reminiscences of Irving.

We find in the *Knickerbocker* for January the following very sketchy reminiscences of the late WASHINGTON IRVING:

It was a most pleasant event, "*A Ride through Sleepy Hollow with Washington Irving.*" Let us record it for our present readers.

"Yon murky cloud is foul with rain," that here at Piedmont we see rolling slowly over the hills that environ Sleepy Hollow, on the other side of the river. Even while we watch it, it begins to shake its skirts, and to sift down upon the fading landscape its "superflux of shower." Looking upon this we cannot choose but think of a memorable excursion which the writer hereof once made with Geoffrey Crayon through the wizard region of Sleepy-Hollow, a neighborhood which his own pen had made world-wide famous. The morning had been thunderous and showery; nor did it entirely brighten up until the removal of the first champagne cork at the hospitable table of "Sunnyside;" always a precurser, as the host remarked, of "pleasant weather about this time." After dinner, preceded by the ladies of the household and another guest in the family carriage, Mr. Crayon, in a light open wagon, "tooled" the "Old Knick" over the high eastern hills that inclose the sheltered valley where in their day lived and flourished old Baltus Van Tassel, and his blooming daughter Katrine.

The sun came out between the pearl-colored opaque clouds; the birds began to sing in the trees; a bobolink was rising and sinking on a long, flaunting weed in a joining field; and everything in nature was bright and smiling. Now it came to pass, howbeit, that while beguiling the way with much rememberable converse, we came to the brow of the last hill that overlooks the turn of the road into the valley, one of of the aforesaid opaque clouds, at first no bigger than a man's hand, but which had gradually been "gathering fatness," suddenly darkened, and presently "opened upon us;" also, there were thunderings and lightnings; and trees singly and in ranks, tossed their plumes of green, and battled with the storm. Moreover, the rain now descended amain; insomuch that Mr. Crayon wheeled suddenly into an angle of a rail-fence that skirted an umbrageous grove, dismounted, clambered over, and took shelter under an adjacent tree, holding over his head, meanwhile, the cushioned wagon seat; adown which, as from a spout, the rain poured from his back. "Why don't you come under here, and be comfortably housed, as I am?" asked the Sleepy-Hollow historian, with amusing mock gravity; "Whereto thus then, 'Old Nick:'" "Dare n't do it, dear sir; 'fraid of the lightning now playing about us; had a near relation once struck with the 'electric fluid' (the kind always mentioned by country newspapers as the most fatal) while standing under a tree; came near dying—but didn't."

"Oh!" answered Mr. Crayon, "that alters the case; *it runs in the family, eh?*"

"Well, well; the idea of lightning 'running in a family;' the odd appearance of the speaker, with his inverted leather cushion on his head, under which he looked like a Roman beneath his tortoise-shell shield; the after excursion through the valley, with all that we saw and heard by the way; the appearance of a saturated guest about the hearth of Sunnyside that night, clad in roomy habiliments of the host; all these manifold recollections have arisen in about the space of a minute."

"Cur'ous, and very pleasant are the matters lodged in the thousand cells of memory!"

REMINISCENCES BY DR. NOYES.

Every anecdote or incident concerning Mr. Irving will be treasured by his friends. As an instance of his kindness to animals, he said one day to his physician, when they met on the road a team which had formerly belonged to him: "I can't bear to see those poor horses drawing dirt. They were once my carriage horses. I shall never again sell any animal that belongs to me." The horses, however, were well cared for, the owner being very proud of them.

Mr. T. Addison Richards gives us the following incidents. While he was sketching the pleasant pictures seen through two beautiful elms, as you look up the river from the Sunnyside lawn, and talking with Mr. Irving, the latter fell into some allusions to his advancing age and declining strength, and added, with his characteristic sly humor: "Some twenty years ago, I carried both those trees on my shoulder: but, bless you, I couldn't do it now!" He had planted the trees himself. Speaking one day of the gardener's pretty cottage, he said that he had been forced to build it; that Robert, after basking in the smiles of Fortune as a jolly, contented bachelor, for many years, had been overtaken by calamity, and got married; that it was a sad affair, a very said affair, although Robert did not seem to think so, but on the contrary, deemed himself a more lucky boy than ever. Still the thing was done, and could not be undone; and it only remained to make the best of a bad bargain. He had foreseen the consequences at once, (pointing to the youngsters playing in the cottage park,) and so set forward to plan and erect a new edifice.

It was Mr. Irving's custom to buy Christmas toys for the children of his gardener and coachman, and present them himself. Last Christmas the unpleasant weather kept him in-doors, but he was uneasy all day about the children, who received the presents, but he knew, would miss his visit. The next day he called upon them, to enjoy their bright smiles. In the cars one day from N. Y. an Irish woman in the next seat could not keep her two noisy children quiet. Mr. Irving took one of them in his arms, caressed it, and when the woman got out she thanked him, saying:—'You must be a kind, good father, Sir.' 'No,' said Mr. Irving, 'I am unfortunately, an old bachelor.' The children at Tarrytown would often put flowers in his church pew.

A BLOODLESS VICTORY!!!

1,000,000 BOXES SOLD OF

MOREHEAD'S

MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this Invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It perform all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetises the Pain away, and

PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

Richardson's Irish Linens, Damaks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

BININGER'S OLD LONDON DOCK GIN

A. M. BININGER & CO.,

(ESTABLISHED 1778.)

SOLE IMPORTERS,

No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the

Medical Profession and the Family,

Possesses those INTRINSIC medicinal properties, [Tonic and Diuretic] which belong to an

OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.

Money Matters.

The rates for Money and Exchange continue at previous figures. Currency is becoming somewhat scarcer, but no difficulty is felt in negotiating produce and pork paper at the regular bank rate. A large amount of money is invested in the pork trade, which has not yet begun to return, and hence the tendency towards more closeness in this department. Currency remains firm at 1½ premium. Gold retails at 2 per cent.

PORK AND PROVISION TRADE.

The upward tendency in hogs continued to-day, the market being further stimulated by a large falling off in the supply. Sales include about 700 head at prices ranging from $5,25 for averages of 150 lbs to $5,75 for hogs weighing 200 lbs and upwards. No very heavy lots were on the market, and the majority of sales were inside of $5,60, two lots of over 200 each averaging 194 and 195 lbs, bringing this price. Receipts amount to only 397. This increases the season's receipts thus far to 39,743. The only transactions in provisions that came to our knowledge were sale of 2,000 bulk shoulders, and 2,000 sides at 5¾ and 7¾, part for shipment to Richmond, Va., and the balance for Baltimore.

CHICAGO, DECEMBER 20TH.—The receipts of hogs to-day were about 3,900, live and dressed, and the market was firmer, though not quotably higher—sales of dressed being made at a range of $5@5,77, and live at $4,50@4,65. The market was tolerably active at these prices, and there were not many left over. The sales of dressed hogs were as follows:

The Provision market is firm but inactive. Mess pork is held at $15,50@16 for round lots of well established brands; but buyers are only offering $14,70@15. Cut meats are quiet and unchanged. Lard held firmly at 10c. Tallow 10@10½c.

CINCINNATI PORK MARKET.—We copy from the *Commercial* of Monday in reference to the hog market of that day:

HOGS—Had influences at work in their favor this morning—what they were is scarcely known—under which better prices were demanded, and to some extent conceded. The extraordinary receipts of the week are capped by the report of near 14,000 head to-day; and though the market staggered at the fresh accession to the load, yet strength was recovered, and but little, if any, impression seems to have been made on the feeling which governed operations in the morning.—The averages continue to run very light—unsatisfactorily so—and ground exists for the belief that the yield of mess pork will be fully as light in proportion as it was last year—some think lighter. The discrimination against such is quite strong, but it pays well to sell "shoats" at current rates for hogs, especially when a good market is promised for corn. The sales reported cover averages of 145 lbs at $5 40, and 200 lbs at $6 00; but for weights above 200 lbs, prices may be considered as ranging from $6 00 to $6 40. Indeed, holders appreciate the estimate placed on such averages, and even lots of 200 lbs. weights are held firmly at $6 25.

A despatch from Cincinnati reports dressed hogs advanced 25c. Sales 2,000 at $6 00@6 50. Receipts to-day only 2,700. Pork—Sales of western mess at $15 25@16 50.

The Great Secret at Last Discovered!!

JUNIUS JUDSON,

PATENTEE AND MANUFACTURER OF

JUDSON'S PATENT GOVERNOR VALVES,

FOR REGULATING THE

MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.
Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1850. Reissued, Jan. 7th, 1851. Second Patent, March 11th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.

I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations. Medical.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, ensuing

DYSPEPSIA

which is nothing but canker on the stomach; then on the intestines and

KIDNEYS

creating a sinking, goneifeeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D. Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. R. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination.

Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.
